SUMMARY

Detail-oriented and ambitious **Computer Science & Mathematics Fresh Graduate** specializing in React.js and Next.js development. Proficient in modern Next.js 16 (App Router), React Hooks, and advanced state management with React Query and Redux Toolkit. Experienced in building high-performance applications, enterprise dashboards, and full-stack solutions by integrating Supabase and MERN stack ecosystems. Strong foundation in software architecture, design patterns, and clean code principles.

EDUCATION

Zagazig University, Bachelor of Computer Science & Mathematics

2026

EXPERIENCE

Vibecheck – Fashion E-Commerce Storefront

<http://vibe-check-abb.vercel.app>

- Developed a modern full-stack e-commerce storefront utilizing **Next.js 16** (App Router), **React 19**, and **Tailwind CSS 4**.
- Architected a highly scalable folder structure (_components, _lib) and optimized performance by leveraging Next.js Server Components for data fetching and Client Components for rich interactions.
- Integrated secure client authentication via **NextAuth** (Google OAuth provider) paired with automated database profile creation.
- Designed and persisted robust data layers for products, profiles, carts, and order workflows using **Supabase** (PostgreSQL).
- Implemented real-time visual feedback and state handling with **Sonner** toast notifications for full cart-to-checkout flows.

The Wild Oasis - Hotel Management Dashboard

<https://the-wild-oasis-abb.netlify.app/>

- Developed a full-featured internal management application using React, Styled Components, and Supabase to manage hotel bookings, cabin details, and guest favorites.
- Implemented complex state management and data fetching with React Query, enabling features like caching, prefetching, and optimistic updates.
- Built an interactive statistics dashboard with dynamic charts using Recharts.
- Designed highly reusable UI components (Modals, Context Menus, Tables) using the Compound Component Pattern.
- Managed secure authentication and media storage (images) using Supabase.

Tnafos Construction Group Website

<https://tnafos.vercel.app/>

- Developed a professional corporate website using Next.js and Tailwind CSS.
- Optimized performance and SEO using Next.js Server Components and advanced metadata configurations.
- Implemented a responsive UI/UX based on Figma designs to ensure a premium client experience.

TRAINING & COURSES

- **NTI - MEAN Stack:** Web Developer Career Accelerator (210 Hours) – Completed 2025.
- **Udemy - The Ultimate React Course:** React, Next.js, Redux & More – In Progress.
- **Creativa Innovation Hub** - UI/UX Design Course (63 hours) – Completed 2025.
- **Udemy - Node.js, Express, MongoDB & More:** The Complete Bootcamp – Completed 2024.
- **Digital Egypt Pioneers Initiative (DEPI)** - Frontend Web Development Track (~120 hours) – 2024.

SKILLS

- **Languages:** JavaScript (ES6+), HTML5, CSS3
- **Frontend:** React (Hooks, Context API), Next.js 16 (App Router, Server Actions), Redux Toolkit, React Query, Tailwind CSS 4, Styled Components.
- **Backend:** Node.js, Express.js, Supabase (PostgreSQL), MongoDB (Mongoose)
- **Tools & Workflow:** Git, GitHub, npm, VS Code, Postman, REST APIs.
- **Design:** UI/UX Principles, Figma, User-Centered Design
- **Soft Skills:** Problem solving, teamwork, communication, fast learning, adaptability

LANGUAGES

- **Arabic:** Native
- **English:** Intermediate (B1) - good reading and writing skills
